EDUCATION

THE UNIVERSITY OF TEXAS AT DALLAS May 2026
Bachelor of Science in Software Engineering | GPA: 3.73/4.0
Relevant Coursework: Data Structures & Algorithms, Advanced Algorithms, Operating Systems, Database Systems, Object-Oriented Design, Requirements Engineering, Software Architecture, Software Testing & QA

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, C/C++, SQL, HTML/CSS, R
Frontend: React, React Router, Vite
Backend & Data: Spring Boot, Spring Security, Spring Data JPA, PostgreSQL, Flyway, REST APIs
Testing: JUnit, Mockito, MockMvc, Vitest, React Testing Library
Tools/Platforms: Git, GitHub Actions, Docker, Docker Compose, Linux, Nginx, DigitalOcean

RELEVANT EXPERIENCE

AB DRYWALL SYSTEMS LLC - Web Developer Dallas-Fort Worth, TX
React, JavaScript, Vite, GitHub Actions, Nginx, DigitalOcean Jan 2026 – Present
abdrywallsystemsllc.com

- Built the company website as sole developer, translating the owner's requirements and feedback into responsive service pages and project galleries.
- Developed reusable React components, keyboard-accessible galleries, and lazy-loaded WebP images for responsive project browsing.
- Generated route-specific HTML metadata, canonical URLs, and JSON-LD; maintained an XML sitemap and configured Nginx/HTTPS, redirects, custom 404 responses, and caching.
- Built GitHub Actions CI/CD with lint/build checks and versioned release artifacts; deployed approved builds via rsync with atomic release switching, live HTTPS verification, and rollback support.

PROJECTS

WORKOUT TRACKER WEB APPLICATION
Java, Spring Boot, React, TypeScript, PostgreSQL, Flyway, Docker Aug 2026 – Present
workouts.rogerbelman.com | github.com/RogerBelman/Workout-Tracker-Webapp

- Built a full-stack application for strength and cardio logging, reusable workout templates, training goals, and progress charts.
- Designed layered Spring REST APIs with DTO validation and JPA relationships for workouts, exercises, and sets; versioned PostgreSQL schemas with Flyway.
- Implemented session authentication, BCrypt hashing, email verification, and password recovery; restricted training data to its owner.
- Added JSON backup import with validation before transactional replacement, preserving existing records when a backup is invalid.
- Tested account isolation, password recovery, and backup workflows with JUnit/MockMvc and Vitest/React Testing Library.
- Containerized the frontend and backend and built GitHub Actions pipelines for automated checks, versioned images, deployment approvals, health checks, and rollback.

PORTFOLIO WEBSITE
React, JavaScript, GitHub Actions, Nginx Dec 2024 – Present
rogerbelman.com | github.com/RogerBelman/Portfolio-Website

- Built and deployed a responsive React portfolio; automated linting, builds, and production deployment through GitHub Actions with required deployment approval.
