PROJECTS

INDUSTRY-SPONSORED MACHINE LEARNING CAPSTONE — Alignment Module

Python, Machine Learning

Jan 2026 – May 2026

- Contributed to the development of a Python-based machine learning module for an existing satellite ground station simulation platform.
- Applied mathematical modeling and software engineering practices to support antenna-tracking functionality.
- Supported debugging, testing, requirements analysis, and technical documentation within a collaborative development team.
- Used Codex for implementation, debugging, and refactoring while validating generated code against project requirements.

AB DRYWALL SYSTEMS LLC WEBSITE

React, JavaScript, HTML/CSS, React Router, SEO, Vite, Nginx, DigitalOcean, Ubuntu

Jan 2026 – May 2026

- Built and deployed a responsive business website for a Dallas-Fort Worth construction company using React, JavaScript, HTML/CSS, and React Router.
- Implemented technical SEO with route-specific titles, meta descriptions, canonical URLs, Open Graph and Twitter Card metadata, robots directives, and JSON-LD structured data.
- Developed reusable SEO components and prerendered route-specific metadata for Home, Projects, Team, Contact, and 404 pages to improve crawlability before React loads.
- Configured production deployment on an Ubuntu VPS with Nginx, HTTPS, canonical redirects, route handling, and HTTP caching policies.

PORTFOLIO WEBSITE

React, DigitalOcean VPS, HTTPS | rogerbelman.com

EXPERIENCE

AB DRYWALL SYSTEMS LLC

Dallas, TX

Construction Laborer & Delivery Assistant | Web Developer

Seasonal/Part-Time, 2023–Present

- Delivered construction materials to job sites, assisted mechanics with field tasks, and supported daily job-site operations.
- Served as a bilingual English/Spanish interpreter between mechanics, supervisors, and other team members.
- Designed and deployed the company website listed under Projects.

SAM'S CLUB

Dallas, TX

Club Pickup Associate

May 2025 – Mar 2026

- Fulfilled online pickup orders, staged merchandise, assisted customers, and maintained order accuracy in a high-volume retail environment.
